PROFESSIONAL SUMMARY

Informatics Engineering student focused on data science, machine learning, computer vision, predictive modeling, and AI application development.

Experienced in building end-to-end machine learning solutions from data preparation, feature engineering, and model evaluation to API integration and deployment, with 934 hours of AI Engineering training completed and 92.44% model accuracy achieved in Nutrify.

EXPERIENCE

Backend AI Engineer Intern

FlyRank AI | Jul 2026 - Aug 2026

- Developed backend components for AI-powered applications, including API integration, workflow automation, and scalable application structures.
- Integrated backend logic with AI workflows to enable structured data exchange and reliable request handling across services.

AI Engineer Graduate - Distinction

Coding Camp 2026 powered by DBS Foundation x Dicoding | Feb 2026 - Jul 2026

- Completed 934 hours of structured AI Engineering training covering Python, machine learning, deep learning, generative AI, Git, and professional development.
- Contributed as AI Engineer on Nutrify by developing a food classification pipeline and preparing model training and evaluation workflows.
- Supported backend model serving and Gemini-based nutrition recommendation integration for the capstone project.

Machine Learning Cohort

Asah - Dicoding x Accenture | Sep 2025 - Jan 2026

- Developed machine learning workflows covering data cleaning, exploratory data analysis, feature engineering, model training, and model evaluation.
- Interpreted model evaluation results for business-oriented machine learning use cases.

Laboratory Assistant

Gunadarma University | 2024 - Present

- Assisted students during practical computing laboratory sessions, supporting technical exercises and troubleshooting.
- Developed technical communication, mentoring, and problem-solving skills through recurring laboratory support.

PROJECTS

Nutrify - AI-Powered Nutrition Platform | Python, TensorFlow, FastAPI, Gemini API, Computer Vision

- Developed an AI platform for Indonesian food image recognition using transfer learning with TensorFlow, achieving 92.44% model accuracy.
- Integrated FastAPI model serving with Gemini API to support a nutrition recommendation flow.

Customer Churn Prediction | Python, Pandas, scikit-learn, Classification

- Built a churn prediction workflow on 7,043 customer records using data cleaning, EDA, feature engineering, and classification modeling with scikit-learn.
- Evaluated model performance and selected Logistic Regression as the best model with 84.26% ROC-AUC.

Credit Risk Prediction | Python, scikit-learn, Classification, Model Evaluation

- Developed supervised credit risk classification models to estimate borrower risk categories.
- Compared multiple models and selected Random Forest as the best model, achieving 93.23% accuracy and 93.11% ROC-AUC.

Public Service Sentiment Analysis | Python, scikit-learn, TF-IDF, LinearSVC, Multinomial Naive Bayes, Streamlit

- Built a Streamlit application for classifying sentiment in Indonesian public service reviews collected from Google Maps.
- Implemented text preprocessing and TF-IDF feature extraction, compared Multinomial Naive Bayes with LinearSVC, and deployed the best-performing model.

SKILLS

Programming: Python, SQL

Machine Learning: scikit-learn, TensorFlow, Classification, Model Evaluation, Feature Engineering

AI Applications: Computer Vision, Natural Language Processing, FastAPI, Streamlit, API Integration, Model Serving

Data Analysis: Pandas, NumPy, Exploratory Data Analysis, Data Cleaning, Power BI, SQLite

Tools: Git, GitHub, Jupyter Notebook, Google Colab, TensorBoard

EDUCATION

Bachelor of Informatics Engineering

Gunadarma University | Sep 2023 - Present

CERTIFICATIONS AND AWARDS

- Coding Camp 2026 - AI Engineer Learning Path, DBS Foundation x Dicoding - Distinction Graduate, 2026
- 3rd Best Team - Machine Learning Path, GDG on Campus Gunadarma, 2026
- Asah Machine Learning, Dicoding x Accenture, 2026
- Productivity with AI Bootcamp, Badan Ekraf Digital Talent x Dicoding, 2026

LANGUAGES

Indonesian - Native | English - TOEFL Score 580
